Software Solution Proposal

School Software

Attn:

Mr. Muhammad Naeem Athar
Assistant Director
MAPS

Date: 17-08-2019

Reverend Sir,

Thank you for taking the time to work with us to determine your technology needs. We know that your school management software has been a high priority problem for you. We are pleased to propose a cost-effective solution that will maximize your school needs. We will be available to deliver work on this software as soon as possible. We find confident ourselves in providing our clients with a professional service, guaranteed accuracy, and the high level of confidentiality.

Software Solution

The proposed system will be a customized software solution which will be windows base or desktop application with multi user access rights. This software will provide ease of data entry to reporting through system. Software will assist your staff for better management of school and keeps history of the students. And it will provide reporting for the management for their decisions.

According to your decision, whether you required old system or new system we will go ahead for further development.

Scope of Project

We have found following milestones from provided information and documents.

Module	Detailed Tasks
1. Testing System	<ul style="list-style-type: none">• 1st Term Tests• 2nd Term Tests• Annual Exams
2. Notice Message	<ul style="list-style-type: none">• Tests Result messages• Notice messages

3. Fee Voucher	<ul style="list-style-type: none"> • Fees voucher generation • Fees Types (like Fine, Admission Fee etc.)
-----------------------	---

4. Attendance System	<ul style="list-style-type: none"> • Teachers / Staff Attendance • Students Attendance • Records for Attendance
-----------------------------	--

5. Accounts System	<ul style="list-style-type: none"> • Staff Salaries • Salary Report • Revenue Report • Pending Fees Report • Result Cards • Grading Report
---------------------------	--

Solution Technology

As we discussed about the technology to implement this software, we decided to implement using desktop application.
